- Easily Adaptable
- Flexible to Everything

CERTIFICATIONS

Certified for
“WebDevelopment” by “1Stop”.

Certified for
“Java Full Stack” by “Kodnest”.

PROFILE

To gain a good position in an organization where I can use my skills and knowledge for myself and our company's development.

PROJECTS

Major Project

Title : Segmentation of Hippocampus using u -net and detection of alzheimer disease from brain MRI images.

Description : To develop a U-Net based deep learning model for the accurate segmentation of the hippocampus in brain MRI images and to utilize this segmentation for the early detection of Alzheimer's disease

Minor Project

Title : Arduino Based Wireless Frequency Meter.

Description : The aim of project is to measure frequency of sinusoidal AC signals in the range 50HZ to 3KHZ.

My Diary Application

Title : Web-Based Personal Diary Application using Spring Framework.

Description : The aim of the Web-Based Personal Diary Application is to provide users with a secure platform to register, log in, and manage their diary entries by date. Built using the Spring Framework, it integrates MySQL for efficient data storage and offers a simple, interactive interface for easy navigation.
